

4DMT Announces Pricing of \$100 Million Offering of Common Stock and Pre-Funded Warrants

November 6, 2025

EMERYVILLE, Calif., Nov. 06, 2025 (GLOBE NEWSWIRE) -- 4D Molecular Therapeutics (Nasdaq: FDMT, 4DMT or the Company), a leading late-stage biotechnology company advancing durable and disease-targeted therapeutics with potential to transform treatment paradigms and provide unprecedented benefits to patients, today announced the pricing of an underwritten offering of 8,385,809 shares of its common stock and, in lieu of common stock to certain investors, pre-funded warrants to purchase 1,128,949 shares of common stock. The shares of common stock are being sold at a price of \$10.51 per share and the pre-funded warrants are being sold at a price of \$10.5099 per pre-funded warrant, which represents the per share price for the common stock less the \$0.0001 per share exercise price for each pre-funded warrant. The gross proceeds from the offering are expected to be approximately \$100 million before deducting underwriting discounts and commissions and other estimated offering expenses. All of the shares and pre-funded warrants in the offering are to be sold by 4D Molecular Therapeutics. The offering is expected to close on November 7, 2025, subject to satisfaction of customary closing conditions.

Leerink Partners, Evercore ISI and Cantor are acting as joint book-running managers for the offering. RBC Capital Markets is acting as a co-manager for the offering.

About 4DMT

4DMT is a leading late-stage biotechnology company advancing durable and disease-targeted therapeutics with potential to transform treatment paradigms and provide unprecedented benefits to patients. The Company's lead product candidate 4D-150 is designed to be a backbone therapy forming the foundation of treatment of blinding retinal vascular diseases by providing multi-year sustained delivery of anti-VEGF (aflibercept and anti-VEGF-C) with a single, safe, intravitreal injection, which substantially reduces the treatment burden associated with current bolus injections. The Company's lead indication for 4D-150 is wet age-related macular degeneration, which is currently in Phase 3 development, and second indication is diabetic macular edema. The Company's second product candidate is 4D-710, which is the first known genetic medicine to demonstrate successful delivery and expression of the CFTR transgene in the lungs of people with cystic fibrosis after aerosol delivery. 4D Molecular Therapeutics™, 4DMT™ Therapeutic Vector Evolution™, and the 4DMT logo are trademarks of 4DMT.

All of the Company's product candidates are in clinical or preclinical development and have not yet been approved for marketing by the U.S. Food and Drug Administration or any other regulatory authority. No representation is made as to the safety or effectiveness of the Company's product candidates for the therapeutic uses for which they are being studied.
